

Suffolk Coastal

Residential Analysts

1. Affordability

Average house prices

Source: HM Land Registry Price Paid Data

The average house price in Suffolk Coastal in 2018 was £298,000. The median ratio of house prices to local earnings is 9.3. This is higher than the England average of 8.0, suggesting high house prices are likely to be an issue.

According to 2016 ONS data, the average price per square metre was £2,509 with the average price per bedroom £59,902 - the corresponding national average figures were £2,463 and £55,087.

Sales distribution by house price

Source: HM Land Registry Price Paid Data

New homes made up 12.0% of the total 2,194 sales recorded by the Land Registry in 2018. 10.6% of total sales were flats, and 57.7% were under £300,000. By comparison, 66.0% of transactions nationally were under £300,000.

1. Affordability

Source: VOA Private Rental Market Statistics

Private rents in Suffolk Coastal in the 12 months to September 2018 ranged from £450 per month for a lower quartile one bed to £1,150 for an upper quartile four (or more) bed property. The overall median private rent was £650, which is approximately the same as the England average of £690, suggesting high private rents may be a problem.

Source: MHCLG Live Tables on Rents, Lettings and Tenancies; VOA Private Rental Market Statistics

Social rents are approximately 62% of private rents in Suffolk Coastal. Average social rents have increased 12.6% over the past five years, compared with 9.3% at national level.

Note: Social rents based on simple average of RP and local authority stock, or RPs only where no local authority stock (e.g. LSVT).

1. Affordability

Source: ONS Annual Survey of Hours and Earnings

The median full-time earnings in Suffolk Coastal were £30,703 in 2018, compared to £29,869 in England. Half of local full-time workers earn between the lower quartile of £21,701 and the upper quartile of £44,091, compared to national figures of £21,273 and £42,285.

NOTE: Earnings estimated due to incomplete survey data.

This chart shows a simple comparison of initial mortgage costs and rents for a range of scenarios to represent potential FTB decisions.

Note: Buying scenarios based on average terraced house value (flat in London), lower of £600k (HTB limit) or average new build for HTB, and includes +3% mortgage rate stress test.

1. Affordability

Source: HM Land Registry UK House Price Index

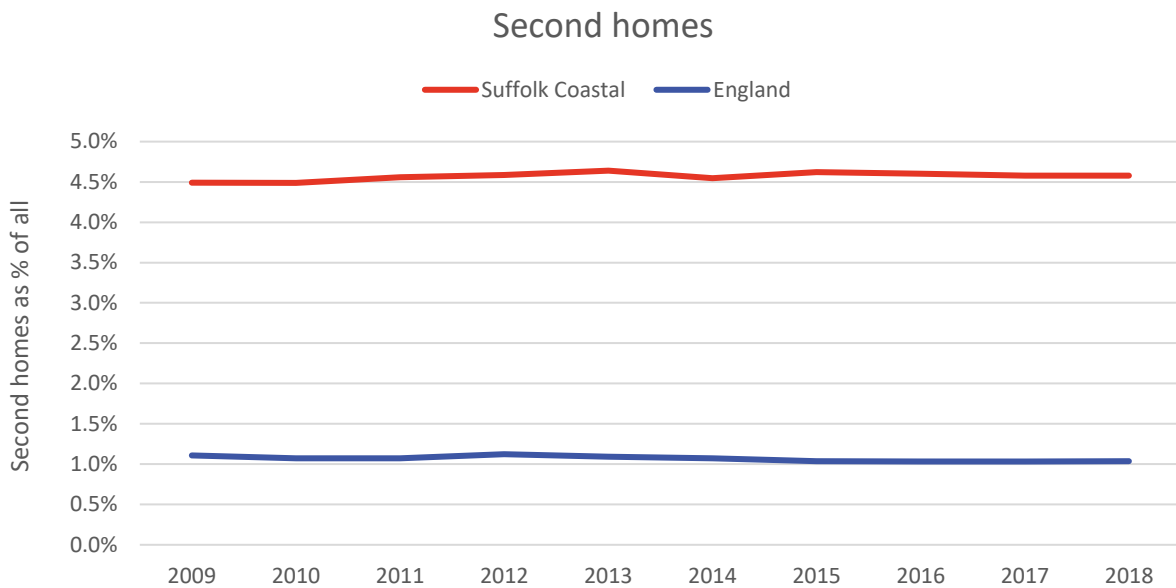

House prices in Suffolk Coastal in December 2018 are higher than their 2007/08 peak by 36.8%, compared with England at +27.3%. This suggests that rapid house price growth through the current cycle is likely to be a significant local problem. Values in 2018 increased by 5.2% annually. An indicative rental yield (based on ave 2 bed rent vs. ave flat sales value) for Suffolk Coastal is 4.6%, compared with 3.4% nationally.

Source: UK Finance

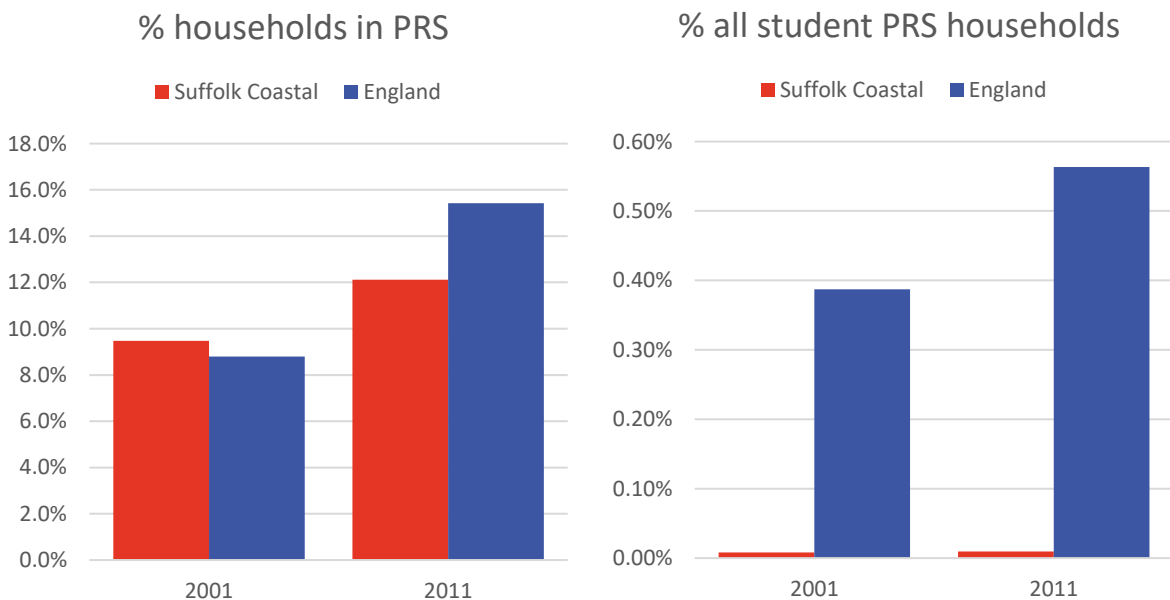

This chart shows the change in mortgage lending across the postcode districts in Suffolk Coastal. The total volume of lending in the 12 months to Q2 2018 was £2,966 million, compared with £2,903 million a year earlier, a change of +2.2%.

1. Affordability

Source: Council Tax Base

4.6% of residential properties in Suffolk Coastal were recorded as second homes in 2018 according to Council Tax Base data. This is significantly higher than the England average, suggesting high levels of second home ownership are likely to be a significant issue, though other sources should be considered.

Source: 2001 and 2011 Census

12.1% of households in Suffolk Coastal were rented privately according to the 2011 Census, compared to 9.5% in 2001. The England average changed from 8.8% to 15.4% over the same period.

0.1% of the PRS households in Suffolk Coastal comprised only students in 2011, compared with 3.7% in England, suggesting students are not a significant part of the local PRS market.

1. Affordability

Source: Social Mobility Index

Suffolk Coastal received an overall standardised score of 11.8 in the 2017 Social Mobility Index, compared to the England average of zero. Suffolk Coastal ranks as 116/324 for overall score across all English local authorities for which data is available. Local house price affordability could be a further barrier to social mobility in this area.

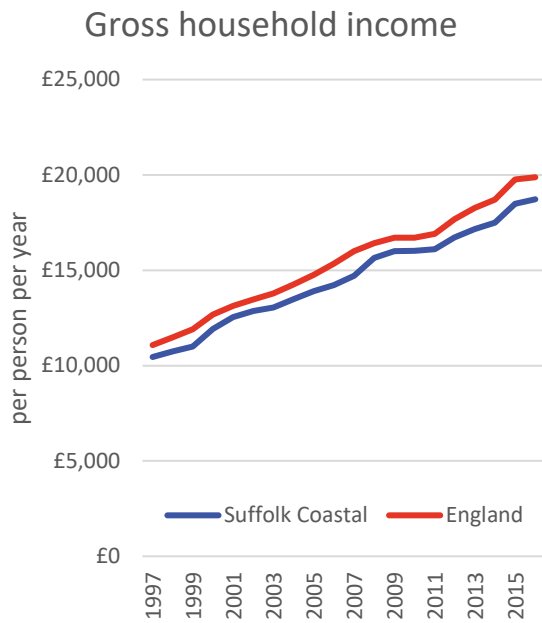

Source: ONS Local Labour Market Indicators

Employment in Suffolk Coastal changed from 75.3% in 2014/15 to 81.1% in 2017/18; unemployment changed from 2.9% to 2.9%; and economic inactivity changed from 22.0% to 16.7%.

By comparison, employment in England changed from 73.6% in 2014/15 to 75.3% in 2017/18; unemployment changed from 5.3% to 4.2%; and economic inactivity changed from 22.2% to 21.3%.

1. Affordability

Source: ONS Regional Accounts

Gross domestic household income in Suffolk Coastal was £18,722 per person per year in 2016, compared with £14,230 in 2006. By comparison the figure for England changed from £15,349 to £19,878 over the same period. Based on this measure, Suffolk Coastal is an area of typical affluence.

Gross value added at district level was £24,022 per person per year in 2016, compared with £19,976 a decade earlier. By comparison the figure for England changed from £21,773 to £27,108 over the same period.

2. Availability

Source: MHCLG Live Tables 253a and 122

The measures of 'conventional' housebuilding for Suffolk Coastal are shown in this chart. The 'official' MHCLG supply figures for 2017-18 recorded 537 new build completions (excluding any conversions or change of use). Over the same period 540 completions were recorded in the 'unofficial' quarterly data, along with 530 starts.

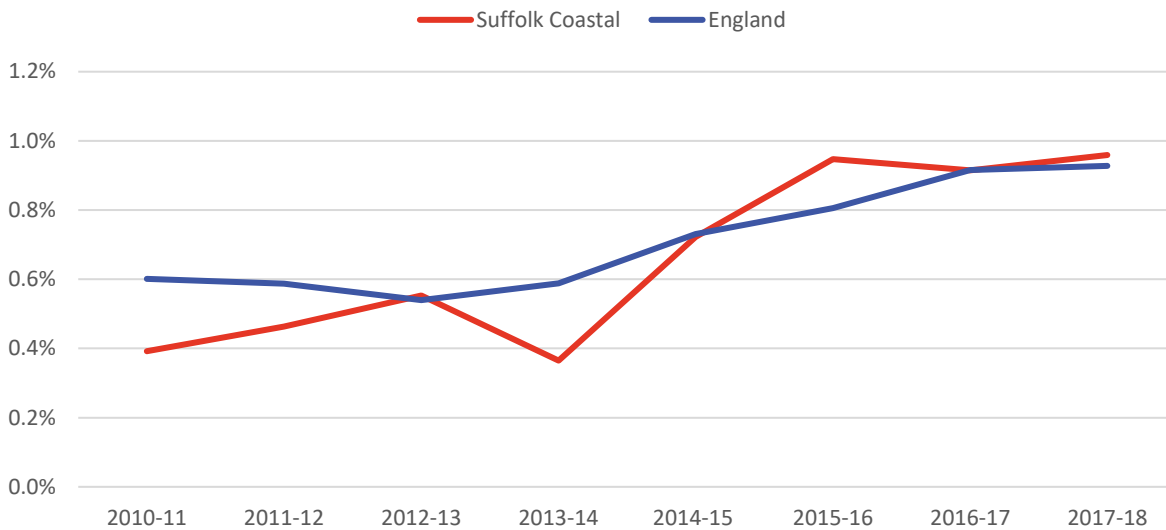

Source: MHCLG Live Table 122; MHCLG Live tables on Energy Performance of Buildings Certificates; Council Tax Base

This chart shows total supply for Suffolk Coastal. The 'official' MHCLG supply figures for 2017-18 recorded 582 net new homes in total (including conversions and change of use, and after demolitions), and the Council Tax Base changed by +622 homes in the same period.

EPCs issued for new homes are used as a lead indicator of supply and can often be used to estimate net supply: 699 were recorded in the 2018 calendar year in Suffolk Coastal.

2. Availability

Net additions as % of stock

Source: MHCLG Live Tables 100 and 122

The net new supply in Suffolk Coastal increased the existing housing stock by 1.0% in 2017/18. This is approximately the same as the England average of 0.9%, suggesting the level of local supply may be a problem. Note that the Government's national target of 300,000 homes per year is equivalent to 1.3%.

Affordable delivery

Source: MHCLG Live Tables 1006C, 1006aC and 1007C

The previous analysis in this section covers delivery of all tenures / by all types of developer. This chart shows only delivery of affordable housing. In Suffolk Coastal 146 new affordable homes were completed in 2017/18: 0 for social rent, 134 for affordable rent and 12 intermediate affordable homes.

2. Availability

Household and population projections

Source: ONS 2016-based Sub-national Population and Household Projections

Population growth in Suffolk Coastal is set to average 514 people per year from 2020 to 2041, with projected average annual household growth of 414 households over the same period. The average household size in 2020 is projected to be 2.27, and 2.13 in 2041.

Housing delivery test

Source: MHCLG Housing Delivery Test 2018 Measurement

The most recent figures show that Suffolk Coastal delivered more new homes than required by the MHCLG Housing Delivery Test. 1,696 net new homes were supplied over the past three full years, compared with the 1,322 required. The result of the test is that no action is required.

These three charts show property characteristics for Suffolk Coastal from the 2011 Census, compared to the national averages.

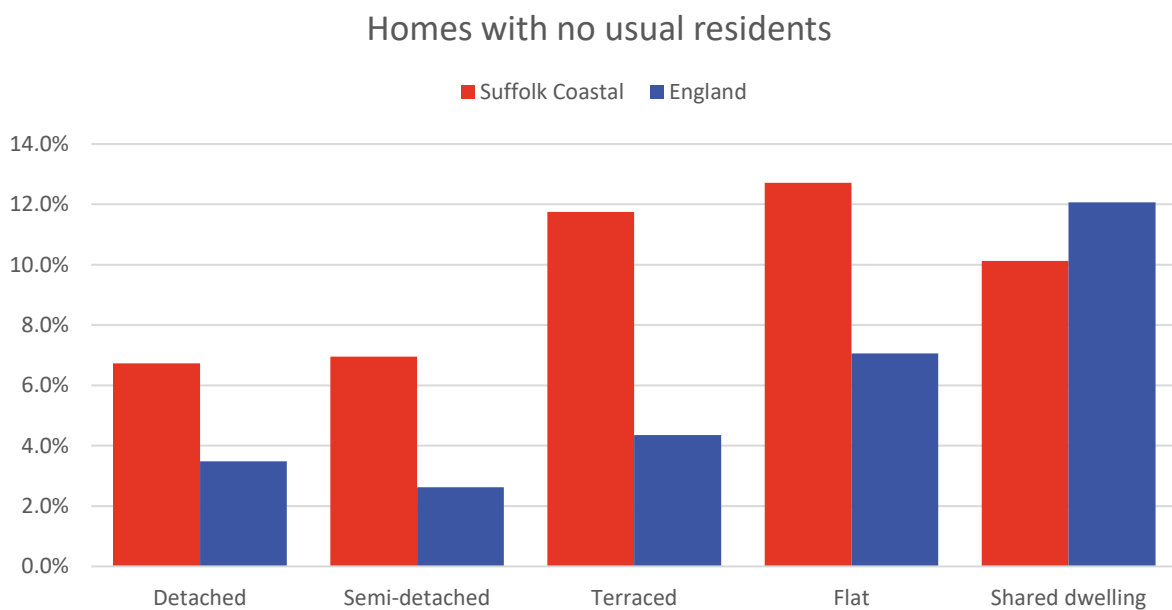

2. Availability

Source: HM Land Registry Price Paid Data

Turnover in Suffolk Coastal was 4.6% in 2017 (the latest year with full data). This is significantly lower than the average before the global financial crisis (turnover from 2001-05 averaged 6.1%). For comparison turnover in England was 4.4% in 2017.

Note that the above analysis includes both standard Land Registry 'A' data and additional 'B' data (which covers repossessions, mortgaged buy-to-let and corporate transactions). In Suffolk Coastal in 2017 there were 78 'B' sales, 3.1% of the total.

Source: 2011 Census

The proportion of homes with no usual residents in Suffolk Coastal was 8.3% according to the 2011 Census. This level is significantly higher than the England average of 4.3%.

2. Availability

Source: Council Tax Base

1.9% of residential properties in Suffolk Coastal were recorded as vacant in 2018 according to Council Tax Base data. This is approximately the same as the England average, suggesting high levels of vacant homes may be a problem.

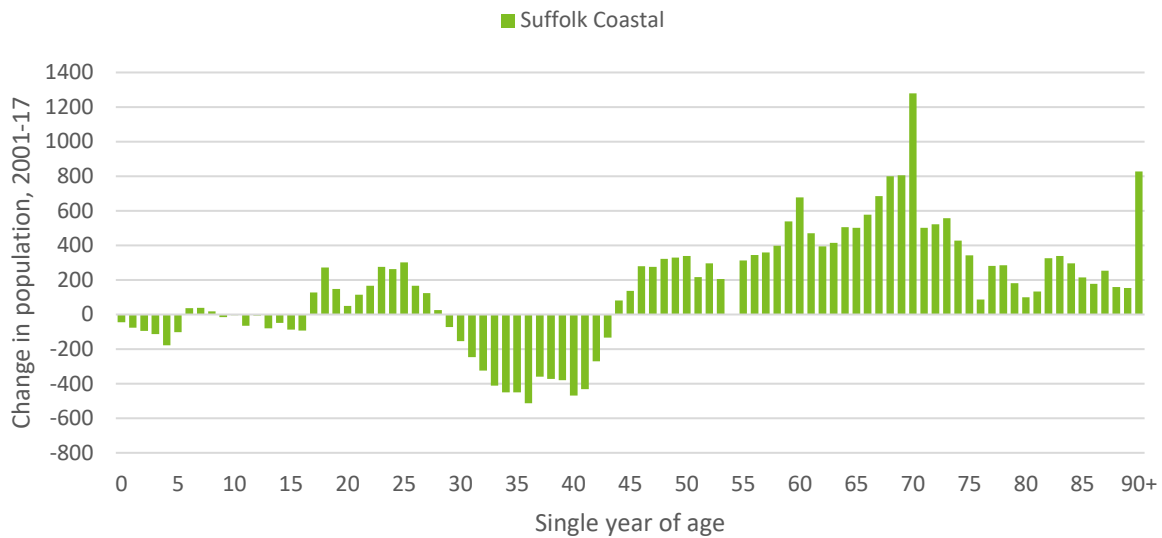

Source: 2011 Census

46.6% of homes in Suffolk Coastal had two or more spare bedroom, according to the 2011 Census. This is much higher than the England average, suggesting the distribution of housing is likely to be a significant problem.

2. Availability

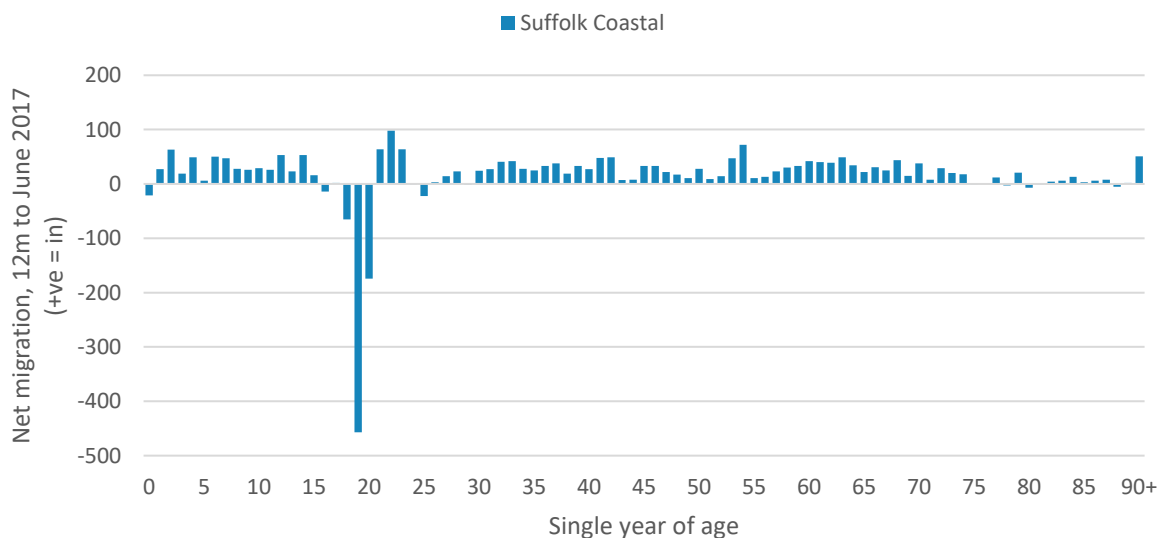

Population change by age, 2001-17

Source: ONS Population Estimates

Overall, the population of Suffolk Coastal grew between 2001 and 2017, changing by +12.0%. Overall growth at national level over the same period was +12.5%. By age, the largest single contribution to growth was from 70 year olds.

Net migration by age

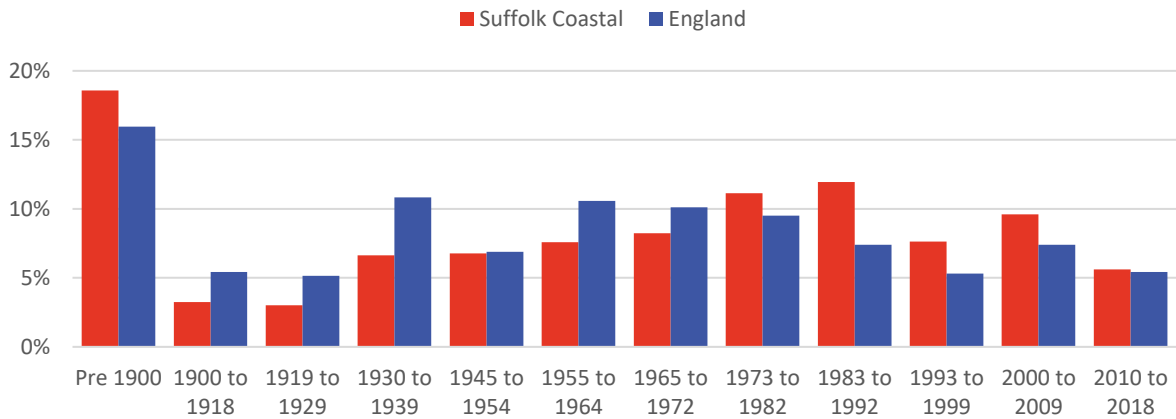

Source: ONS Local Area Migration Indicators

The overall population in Suffolk Coastal changed by +1.2% due to migration in the 12 months to June 2017: +1.1% from domestic sources and +0.1% from international. By age, the largest single contribution to growth was from 22 year olds.

EPC rating

Source: Council Tax Base

These three charts show property characteristics for Suffolk Coastal from the 2018 Council Tax Base, compared to the national averages.

3. Suitability

Source: 2015 Indices of Multiple Deprivation

5% of the LSOAs in Suffolk Coastal are in the three most deprived deciles, based on the 2015 indices of multiple deprivation. This suggests it is an area of very low relative deprivation (the national average is 30%).

Source: Annual Population Survey (Headline estimates of personal well-being)

Residents of Suffolk Coastal scored their life satisfaction at 7.76 out of 10 on average in 2017/18, compared to the England average of 7.68. The corresponding figures for 2011/12 were 7.49 and 7.41 respectively.

Over all four categories combined, local people have approximately average levels of well-being in 2017/18, compared to the national figures.

3. Suitability

Population structure

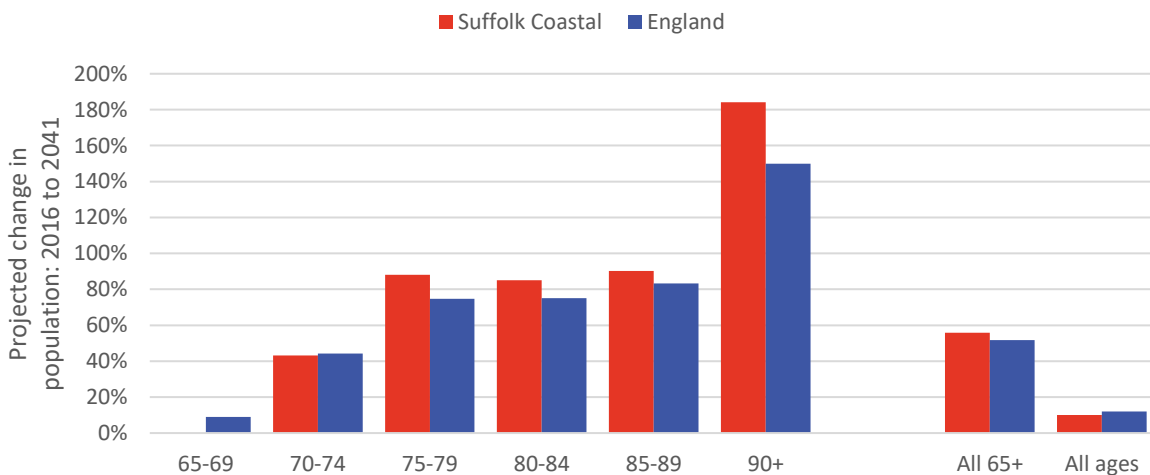

Source: ONS Population Estimates

The population structure of Suffolk Coastal comprised 6.1% aged 18 to 24, 48.0% aged 25 to 64, and 27.0% aged 65 and over in 2017. The corresponding figures for England were 8.7%, 51.9% and 18.0%.

This suggests that the local population may include a significantly lower than average level of students, along with a higher than average level of older people.

Population growth: older people

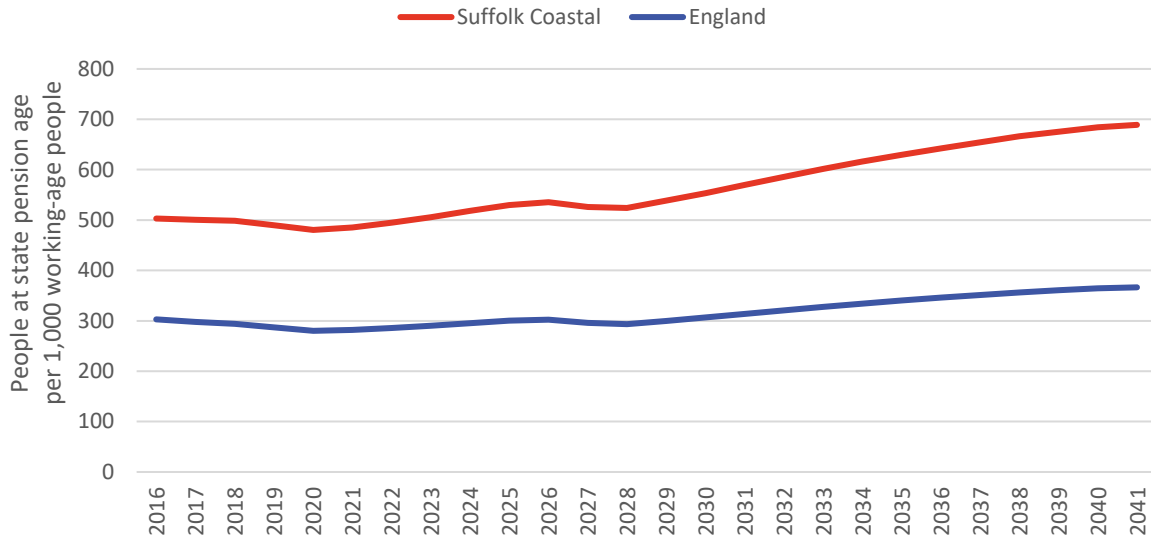

Source: ONS 2016-based Population Projections

The 65 and over population of Suffolk Coastal is expected to grow by 55.9% from 2017 to 2041, according to the latest ONS population projections. This is compared to an overall population change of +10.0%. The corresponding national figures are growth of 51.7% and 12.1% respectively.

3. Suitability

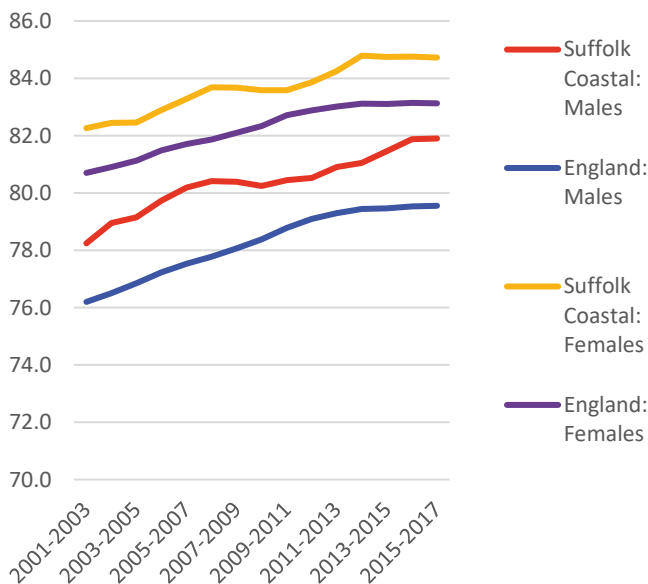

Old age dependency ratio

Source: ONS Old Age Dependency Ratios

In Suffolk Coastal in 2019 there are expected to be 489.4 people of state pension age for every 1,000 working-age people, compared to an average of 286.8 at national level. By 2041 these rates are projected to reach 689.0 and 366.4 respectively.

Life expectancy at birth

Life expectancy at age 65

Source: ONS Life expectancy at birth and age 65

The average life expectancy for people born in 2015-17 in Suffolk Coastal is 81.9 years for men and 84.7 years for women. The equivalent national figures are 79.6 and 83.1 respectively.

3. Suitability

Source: DfT Journey Time Statistics

Suffolk Coastal has well below average public transport connectivity compared to the national figures, with an average travel time to reach the nearest 8 key services of 25.8 minutes (England average = 17.7).
